

# Rhythm

The ideal combination of  
technology and performance

## Nothing Beats a Quickie™

Designed for comfort, the Quickie Rhythm's suspension and seating options are the perfect solution. With over 2 years of field tested reliability, the Rhythm Group 3 chairs offer some of the best values in the industry.

### Enhanced Performance:

- 6-Form™ independent suspension keeps each wheel in constant contact with the ground.
- Leveler™ technology helps prevent forward pitching when traveling downhill.
- Standard motor package provides a top speed of 6.5 mph.

### Jay SPO and ART SPO Seating:

- These backrests combine comfort with exceptional positioning and clinical postural management in a package that can be field customized.
- Features a multitude of visco-elastic foam shapes that vary in firmness and thickness to help redistribute load and customize shape.
- Covers feature 3DX™ spacer fabric to wick away moisture and heat.
- ART SPO available with customized back shell shapes: rectangular, I-back, scapular cut.

### Electronics Options:

- Industry standard VR-2 PG Drive Joystick for non-expandable controls.
- R-net Expandable Controls with full specialty control options.
- R-net provides up to 8 different profiles for various environments.
- R-net features color screens on select joysticks and an OMNI display with a real-time consumer clock (clock display on screen).
- OMNI includes IR functions and add-on Bluetooth® Mouse Mover.

### ASAP (Adjustable Seating and Positioning) System:

- Offers width, depth and back height adjustment from 16" to 20" as well as back angle adjustment.
- Arm height changes are simple and the standard backrest fits the industry standard 1" canes.
- Available with static tilt adjustment of 0°, 3°, 6°, and 9° (6° and 9° not available with power seating).
- SPOT Tilt on ASAP system provides up to 50° of tilt (available on Rhythm SC).
- A simple and effective seating system that allows for multi-adjustable positioning with a variety of additional add-ons.
